

# **Anarchism and economy**

**Natural harmony**

**Individualism**

**Free co-  
ordination**

# Anarchism and economy

# **Anarchism and economy**

## **Proudhon:**

- **economy based free exchange between producers on the basis of contracts**
- **basis: private property**
- **contracts replace state interference**
- **producers can be associations of workers**
- **credit should be free of interest**
- **valuation a problem**
- **inequality of income not**

# **Anarchism and economy**

## **Cornelissen:**

- **trade unions are cells of future economy**
- **will organise production**
- **1920s: companies run by workers' councils**
- **market replaced by co-ordination**

# **Anarchism and economy**

## **Anarcho-capitalists**

- **state intervention cause of malfunction of markets**
- **no state interference**
- **basis: private property**
- **completely free market will raise material standard of living**
- **pro-capitalism**

# **Anarchism and economy**

## **Market-anarchists**

- **anti-capitalist development from anarcho-capitalism**
- **belief in salutary working of a completely free market**
  - **diffuses equality**
  - **free exchange between individual producers and associations of producers**

# **Anarchism and economy**

## **The market between**

- **The Scylla of free competition**

- **And the Charybdis of co-ordination**

# **Anarchism and economy**

- **The completely free market leads to**
  - **Inequality between producers (okay with Proudhon)**
  - **Inequality within enterprises (not okay with Proudhon, amendment of David Prychitko)**
  - **Overproduction - crises**
  - **Neglect of costs (environment! Necessary savings like pension schemes etc.)**

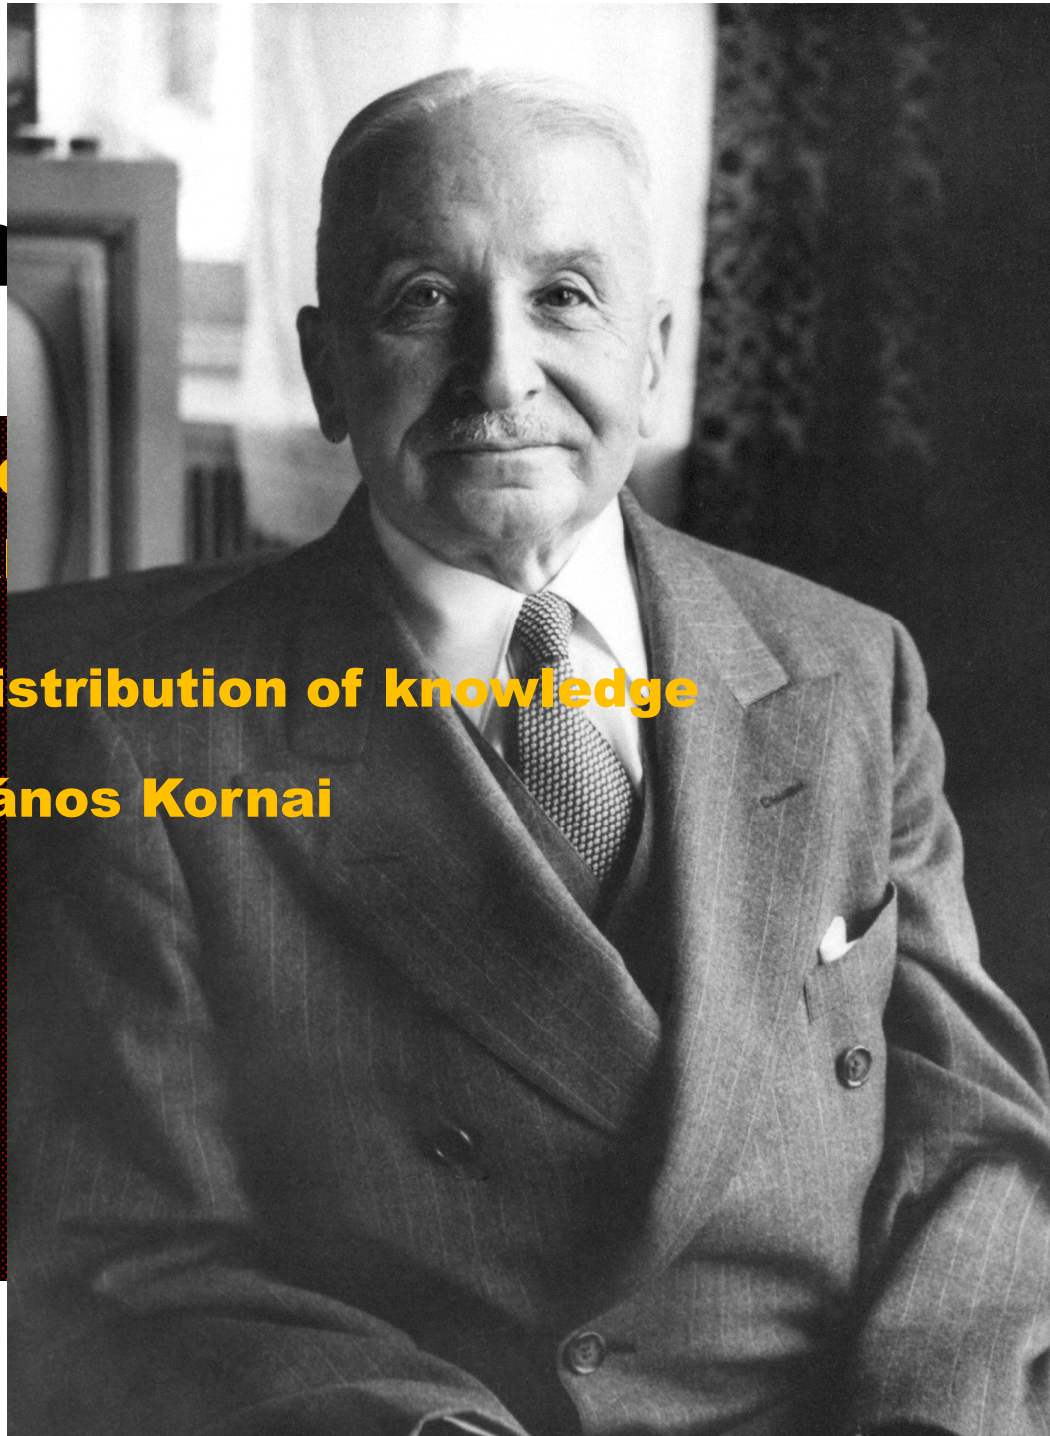

# **Anarchism and economy**

- **Co-ordination leads to**
  - **Overkill of deliberations**
  - **Bureaucracy**
  - **Disappearance of the market**
