

**Anarchism is** a definite intellectual current of social thought, whose adherents advocate the abolition of economic monopolies and of all political and social coercive institutions within society.

In place of the capitalist economic order, Anarchists would have a free association of all productive forces based upon cooperative labour, which would have for its sole purpose the satisfying of the necessary requirements of every member of society. (*Rudolf Rocker, Ideology of Anarchism*)

"I am an Anarchist not because I believe Anarchism is the final goal, but because there is no such thing as a final goal."
